☐ BD

☒ USA

- . **Overall:** 2024 imports are ~31bn (selected currency) and ~120% higher vs 2021
- . **Who drove the change (2021→2024):** Top contributors are **Animal & Animal Products**, **Chemicals & Allied Industries**, **Vegetable Products**, **Transportation**, **Foodstuffs**, and **Machinery / Electrical** (bar chart).
- . **Why they moved:** The **Price vs Volume** chart shows the pattern:
- . **Volume-driven:** Machinery/Electrical (largest), Vegetable Products, Transportation (big volume bars, small price bars).
- . **Price-driven:** **Chemicals & Allied Industries** (price bar dominates).
- . **Mixed:** Animal & Animal Products, Plastics/Rubbers, Mineral Products (both bars meaningful).
